

"UNITED CHURCH OF CHRIST, NORTH DAKOTA / DIKINSON FIRST CHRISTIAN" - 2018
WE CONTINUE TRAINING OUR COMMUNITIES

...I will instruct you and teach you in the way you should go; I will counsel you with my loving eye on you » Psalms 32:8

Our team of mission trip volunteers led by Macry Dawson gave a three day workshop on first aid in Gonzales Suarez. There were 64 participants from different organizations and communities such as: Pijal Centro, Tocagon, Inty Huaycopungo, Caluqui, San Agustin, San Pedro, Barrio Central, ASOSERGONS, and Pusir Grande.

The first aid workshop focused on topics like how to react and what to do when faced with small injuries, large first and third degree burns, splinting an arm or ankle fracture, types of medicine and when to use them, and how much medicine you can take. We also covered choking, and how to attend to someone who has had an accident resulting in memory loss. For all of the topics, our team gave out complete first aid kits and Marcy showed up how to use every part of the kit.

For all of the topics, the class was both theoretical and practical and we want to show some of the highlights from three great days of learning:

We want to give thanks to our entire work team especially Marcy Dawson who shared her knowledge and experience. It is now our responsibility to share this knowledge we have gained with each of our communities. We hope to soon have updates and the results of this training.

If you want to see more pictures from the training, visit FEDICE on Facebook.
